

ASX ANNOUNCEMENT AND MEDIA RELEASE

16 July 2015

FURTHER DRILLING ALONG STRIKE HAS COMMENCED

HIGHLIGHTS

- Drilling 600m north along strike now in progress on Namdini Extension
- This drill hole is located 200m further north along strike from the 99m mineralised drill hole

Cardinal Resources Limited (ASX: CDV) (“Cardinal” or “the Company”) is pleased to announce that drilling a further 200m north along strike has commenced within the recently acquired area of the Namdini Mining Licence (“Namdini”), located within Cardinal’s Namdini Project in Ghana (Figure 1).

Commenting on today’s announcement, Cardinal Resources Managing Director Archie Koimtsidis said:

“We are very happy to announce that drill hole NMRC490-782, located 600m north along strike, is now in progress.

“We anticipate that this drill hole could yield results as encouraging as the recently announced 99m mineralised drill hole which is located 200m south along strike (Figure 2).

“It is expected that this drill hole will increase the gold potential within the mineralised trend of the Namdini Project.”

NEW NAMDINI RC DRILL PROGRAM

Cardinal has divided up the new RC drill program into two phases. Phase 1 will test the Namdini strike extensions to the north within the Birimian volcanoclastics and Phase 2 will evaluate the monzonite granitoid containing quartz vein stockworks.

Subject to the information received during the drilling program, we have the flexibility to reposition the drill between Phase 1 and Phase 2.

MONITORING OF DRILLING PROGRAMS

Cardinal's technical and management team evaluates all of the available data on a daily basis with the main focus being the expansion of the gold potential for the expanded licence areas.

Cardinal is the owner and operator of its own drill rig and has established an express assaying service with its drilling results, enabling the Company to continuously improve its drill plan strategy as new information becomes available.

The Company will continue drilling selective holes, submitting the samples and be on standby as results are received. Once the results have been assessed, Cardinal can plan further drill holes to maximise expansion of the gold potential within the expanded areas around Namdini.

Disclaimer

This ASX announcement (Announcement) has been prepared by Cardinal Resources Limited (ABN: 56 147 325 620) (“Cardinal” or “the Company”). It should not be considered as an offer or invitation to subscribe for or purchase any securities in the Company or as an inducement to make an offer or invitation with respect to those securities. No agreement to subscribe for securities in the Company will be entered into on the basis of this Announcement.

This Announcement contains summary information about Cardinal, its subsidiaries and their activities which is current as at the date of this Announcement. The information in this Announcement is of a general nature and does not purport to be complete nor does it contain all the information which a prospective investor may require in evaluating a possible investment in Cardinal.

By its very nature exploration for minerals is a high risk business and is not suitable for certain investors. Cardinal’s securities are speculative. Potential investors should consult their stockbroker or financial advisor. There are a number of risks, both specific to Cardinal and of a general nature which may affect the future operating and financial performance of Cardinal and the value of an investment in Cardinal including but not limited to economic conditions, stock market fluctuations, gold price movements, regional infrastructure constraints, timing of approvals from relevant authorities, regulatory risks, operational risks and reliance on key personnel and foreign currency fluctuations.

Certain statements contained in this announcement, including information as to the future financial or operating performance of Cardinal Resources and its projects, are forward-looking statements that:

- may include, among other things, statements regarding targets, estimates and assumptions in respect of mineral reserves and mineral resources and anticipated grades and recovery rates, production and prices, recovery costs and results, capital expenditures, and are or may be based on assumptions and estimates related to future technical, economic, market, political, social and other conditions;
- are necessarily based upon a number of estimates and assumptions that, while considered reasonable by Cardinal Resources, are inherently subject to significant technical, business, economic, competitive, political and social uncertainties and contingencies; and,
- involve known and unknown risks and uncertainties that could cause actual events or results to differ materially from estimated or anticipated events or results reflected in such forward-looking statements.

Cardinal Resources disclaims any intent or obligation to update publicly any forward-looking statements, whether as a result of new information, future events or results or otherwise. The words ‘believe’, ‘expect’, ‘anticipate’, ‘indicate’, ‘contemplate’, ‘target’, ‘plan’, ‘intends’, ‘continue’, ‘budget’, ‘estimate’, ‘may’, ‘will’, ‘schedule’ and similar expressions identify forward-looking statements.

All forward looking statements made in this announcement are qualified by the foregoing cautionary statements. Investors are cautioned that forward-looking statements are not guarantees of future performance and accordingly investors are cautioned not to put undue reliance on forward-looking statements due to the inherent uncertainty therein.

No verification: Although all reasonable care has been undertaken to ensure that the facts and opinions given in this Announcement are accurate, the information provided in this Announcement has not been independently verified.
